

Abstract of DisclosureImprovement On Cleaning Implement

3 A cleaning implement (2) comprising a body (4) from which  
extends an elongate handle (6), a plurality of bristles  
(12) depending from an underside of the body (4), and an  
elongate squeegee blade (20) formed of resiliently-flexible  
material arranged on the body (4), extending in a direction  
10 generally transverse to the direction in which the handle  
(6) extends, and generally transverse to the direction in  
which the bristles (12) extend.
